	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
follo	wing limitations and conditions:
and the tha at sub men for	erstood that the amount of water herein granted is only a temporary allowance that the final water right obtained under this permit will be dependent upon amount of water actually placed to beneficial use. It is also understood this right must allow for a reasonable lowering of the static water level permittee's well due to other ground water development in the area. A stantial weir or other type of measuring device must be installed and measurets of water use kept. The well shall be equipped with a 2-inch opening measuring depth to water. If well is flowing, a valve must be installed maintained to prevent waste. The State retains the right to regulate the of the water herein granted at any and all times.
